

Generation Bio to Present at 40th Annual J.P. Morgan Healthcare Conference

January 5, 2022

CAMBRIDGE, Mass., Jan. 05, 2022 (GLOBE NEWSWIRE) -- [Generation Bio Co.](#) (Nasdaq: GBIO), a biotechnology company innovating genetic medicines for people living with rare and prevalent diseases, announced today that the company will present at the virtual 40th Annual J.P. Morgan Healthcare Conference on Wednesday, Jan. 12, 2022.

Presentation Details

Date: Wednesday, Jan. 12, 2022

Time: 8:15-8:55 a.m. ET

A live webcast of the company presentation and Q&A session will be available on the investor section of the company's website at investors.generationbio.com. A replay will be available there for 30 days following the event.

About Generation Bio

Generation Bio is innovating genetic medicines to provide durable, redosable treatments for people living with rare and prevalent diseases. The company's non-viral genetic medicine platform incorporates a novel DNA construct called closed-ended DNA, or ceDNA; a unique cell-targeted lipid nanoparticle delivery system, or ctLNP; and a highly scalable capsid-free manufacturing process that uses proprietary cell-free rapid enzymatic synthesis, or RES, to produce ceDNA. The platform is designed to enable multi-year durability from a single dose, to deliver large genetic payloads, including multiple genes, to specific tissues, and to allow titration and redosing to adjust or extend expression levels in each patient. RES has the potential to expand Generation Bio's manufacturing scale to hundreds of millions of doses to support its mission to extend the reach of genetic medicine to more people, living with more diseases, around the world.
